

QA EXAMINATION SYSTEM

GUIDELINES FOR EXAMINATION

INSTRUCTION TO THE CANDIDATES

1. Open the “QA EXAMINATION SYSTEM” application **available on the desktop** to access the login page.
2. Enter your **University Register Number and Date of Birth in DD-MM-YYYY** (e.g., 07-09-2004) format. Select your appropriate department and batch year (e.g., 2024–2028).
3. If any system or browser pop-ups appear at this stage (such as save credentials or similar prompts), click “Never” and proceed.
4. **Wait for the invigilator to provide your exam code.**
5. Enter the exam code in the respective field and verify it. If the code is not verified, inform the invigilator immediately.
6. Carefully read the Do’s and Don’ts, provide your acknowledgement, and then start the examination.
7. Avoid engaging in any form of malpractice, as violations may result in immediate termination of the examination.
8. **In case of any genuine technical or procedural issues, contact the invigilator and wait for further instructions.**
9. The examination consists of 50 questions. Question No 1 to 20 will be from BS, and Question No 31 to 50 will be from QA. **All candidates are required to attempt the questions in sequential order.**
10. **The examination can be completed only after attempting all questions. Skipping questions or revisiting previously attempted questions is not permitted.**
11. On reaching the maximum time, all attempted answers will be automatically submitted.
12. Re-login is permitted only in cases of genuine technical issues, such as verified network failures or system-related issues from the developer side. Candidates who are logged out due to malpractice, rule violations, or suspicious activity will not be allowed to re-login under any circumstances.
